Plant and Soil

Contents of Volume 119 1989

Volume 119, No. 1, 1989

H. Majdi and H. Persson, Effects of road-traffic pollutants (lead and cadmium) on tree fine-roots along a motor road 1
P.S. John, R.J. Buresh, R. Prasad and R.K. Pandey, Nitrogen gas ($N_2 + N_2O$) flux from urea applied to lowland rice as affected by green manure 7
P.L. Eberbach and L.A. Douglas, Herbicide effects on the growth and nodulation potential of *Rhizobium trifolii* with *Trifolium subterraneum* L. 15
T. Lindberg, T.A. Bonde, L. Bergström, R. Pettersson T. Rosswall and J. Schnürer, Distribution of ^{15}N in the soil-plant system during a four-year field lysimeter study with barley (*Hordeum distichum* L.) and perennial meadow fescue (*Festuca pratensis* Huds.) 25
W.G. Keltjens and E. van Loenen, Effects of aluminium and mineral nutrition on growth and chemical composition of hydroponically grown seedlings of five different forest tree species 39
C. Bergareche and E. Simon, Nitrate and ammonium accumulation in bermudagrass in relation to nitrogen fertilization and season 51
P.B. Barraclough, Root growth, macro-nutrient uptake dynamics and soil fertility requirements of a high-yielding winter oilseed rape crop 59
L. Rytter, Distribution of roots and root nodules and biomass allocation in young intensively managed grey alder stands on a peat bog 71
E.J. Velthorst and N. van Breemen, Changes in the composition of rainwater upon passage through the canopies of trees and of ground vegetation in a Dutch oak-birch forest 81
C.D. Vincent and P.J. Gregory, Effects of temperature on the development and growth of winter wheat roots. I. Controlled glasshouse studies of temperature, nitrogen and irradiance 87
C.D. Vincent and P.J. Gregory, Effects of temperature on the development and growth of winter wheat roots. II. Field studies of temperature, nitrogen and irradiance 99
P.K. Sharma, S.K. de Datta and C.A. Redulla, Effect of percolation rate on nutrient kinetics and rice yield in tropical rice soils. I. Role of soil organic matter 111
P.K. Sharma, S.K Datta and C.A. Redulla, Effect of percolation rate on nutrient kinetics and rice yield in tropical rice soils. II. Role of straw amendments 121
M.N. Sreenivasa and D.J. Bagyaraj, Use of pesticides for mass production of vesicular-arbuscular mycorrhizal inoculum 127
R.R. Velagaleti and S. Marsh, Influence of host cultivars and Bradyrhizobium strains on the growth and symbiotic performance of soybean under salt stress 133
J. Fuhrmann and A.G. Wollum II, Symbiotic interactions between soybean and competing strains of *Bradyrhizobium japonicum* 139
L. Pagès, M.O. Jordan and D. Picard, A simulation model of the three-dimensional architecture of the maize root system 147

C.J. Smith and O.A. Gyles, Fertilizer and soil nitrogen accumulation by irrigated barley grown on a red-brown earth in south-eastern Australia 155
P.F. White and A.D. Robson, Rhizosphere acidification and Fe^{3+} reduction in lupins and peas: Iron deficiency in lupins is not due to a poor ability to reduce Fe^{3+} 163

Short communications
E.M. Clark, J.C. Williams and M.A. Mulla, *Aspergillus terreus* and fescue toxicosis 177
M.H. Wolfe and J.D. Joslin, Honeylocust (*Gleditsia triacanthos* L.) root response to aluminium and calcium 181
Y. Lundell, *In situ* ion exchange resin bags to estimate forest site quality 186

Volume 119, No. 2, 1989

Y. Bashan and H. Levanony, Effect of root environment on proton efflux in wheat roots 191
S.S. Malhi, L.J. Piening and D.J. MacPherson, Effect of copper on stem melanosis and yield of wheat: Sources, rates and methods of application 199
M. Ashraf, The effect of NaCl on water relations, chlorophyll, and protein and proline contents of two cultivars of blackgram (*Vigna mungo* L.) 205
M.H. Mian and A.K.M. Azmal, The response of *Azolla pinnata* R. Brown to the split application of phosphorus and the transfer of assimilated phorsphorus to flooded rice plants 211
A.A.A. Bawazir and D.B. Idle, Drought resistance and root morphology in sorghum 217
T. Marañon, L.V. García and A. Troncoso, Salinity and germination of annual Melilotus from the Guadalquivir delta (SW Spain) 223
W. de Boer, P.J.A. Klein Gunnewiek, S.R. Troelstra and H.J. Laanbroek, Two types of chemolithotrophic nitrification in acid heathland humus 229
S.J. Park and B.R. Buttery, Identification and characterization of common bean (*Phaseolus vulgaris* L.) lines well nodulated in the presence of high nitrate 237
K. Lõhmus, T. Oja and R. Lasn, Specific root area: A soil characteristic 245
R. Carpena-Ruiz, A. Sopeña and A.M. Ramon, Extraction of free amino acids from tomato leaves 251
S. Farooq, M.L.K. Niazi, N. Iqbal and T.M. Shah, Salt tolerance potential of wild resources of the tribe Triticeae. II. Screening of species of the genus Aegilops 255
L. W. Tauer, Economic impact of future biological nitrogen fixation technologies on United States agriculture 261
M.D. Cahn, R.W. Zobel, and D.R. Bouldin, Relationship between root elongation rate and diameter and duration of growth of lateral roots of maize 271
M. Singh and K.V.B.R. Tilak, Field response of chickpea to inoculation with *Glomus versiforme* 281
M.A. Gnekow and H. Marschner, Role of VA-mycorrhiza in growth and mineral nutrition of apple (*Malus pumila* var. *domestica*) rootstock cuttings 285
S. S. Figdore, G.C. Gerloff and W.H. Gabelman, The effect of increasing NaCl levels on the potassium utilization efficiency of tomatoes grown under low-K stress 295
I. Klein, I. Levin, B. Bar-Yosef, R. Assaf and A. Berkovitz, Drip nitrogen fertigation of 'Starking Delicious' apple trees 305
J.J. Adu-Gyamfi, K. Fujita and S. Ogata, Phosphorous absorption and utilization efficiency of pigeon pea (*Cajanus cajan* (L) Millsp.) in relation to dry matter production and dinitrogen fixation 315
T. Vasantha Devi, R. Malar Vizhi, N. Sakthivel and S.S. Gnanamanickam, Biological control of sheath-blight of rice in India with antagonist bacteria 325

Short communications

N.K. Fageria, V.C. Baligar and R.J. Wright, Growth and nutrient concentrations of alfalfa and common bean as influenced by soil acidity 331

F. Amijee, P.B. Tinker and D.P. Stribley, Effects of phosphorus on the morphology of VA mycorrhizal root system of leek (*Allium porrum* L.) 334

H. Tiessen and M.C.D. Santos, Variability of C, N and P content of a tropical semiarid soil as affected by soil genesis, erosion and land clearing 337

P.O. Owuor and D.K.A. Cheruiyot, Effects of nitrogen fertilizers on the aluminium contents of mature tea leaf and extractable aluminium in the soil 342

Instructions to authors 347
